

MUSIC 220A: Fundamentals of Computer-Generated Sound
Whale Trip (10/14/21)

Transportation:

1. For those planning to travel via the class bus, meet in front of Florence Moore Hall (436 Mayfield Ave) at 8:45AM.
2. For those planning to drive separately, plan to arrive at Fisherman's Wharf in Monterey at 12pm.
3. The boat is scheduled to return around 4:30-5pm. The bus is scheduled to depart shortly afterwards for Stanford. Traffic is hard to predict, but we anticipate returning to campus around 7:30-8pm.

*Parking Note: Fisherman's Wharf has a large parking lot with plenty of spaces, but the best place to park is by Custom House Plaza (near the Old Fisherman's Wharf).

Food:

1. Before embarking, we will be having lunch outside at Custom House Plaza. Sandwiches and other lunch foods will be provided.
2. Light snacks will be provided while on the boat.
3. Pizza will be provided once we disembark.

To Bring:

1. Water
2. Sunscreen
3. Hat
4. Equipment: headphones and a portable field recorder (if you have one). Recorders will be provided to those who do not own one.
5. \$10 to provide a tip for naturalists on the boat.

Seasickness:

1. Eat a bland breakfast the morning of and a simple dinner the night before.
2. Do NOT drink alcohol the night before.
3. Get plenty of sleep the night before.
4. Dramamine, an over-the-counter antihistamine used to combat nausea, will be available for those who want it.

General Considerations:

1. Dress in layers, as temperatures can vary dramatically throughout the course of the trip. Be prepared for both a hot and a cold day.
2. Do not bring anything that you do not wish to get (a little) wet! For example, expensive laptops do not mix well with seawater/seaspray.

COVID-19 Protocols:

1. Guests from outside the Stanford community are required to complete the following health attestation form:
